

FULL STACK DEVELOPER (m/f/d)

Permanent position | Munich or Nuremberg Metropolitan Region

Telepaxx Medical Data is market leader for the management of medical image data and innovator in the field of digital healthcare. For the development of innovative, cloud-based services, we are looking for a Full Stack Developer (m/f/d) in full-time with immediate effect.

Your position

Telepaxx operates the largest healthcare data cloud in Germany and manages over 20 billion image data for healthcare customers. Our goal is to drive digitization in clinics and radiologies together with our customers and to establish data-based technologies and services in healthcare.

As a Full Stack Developer, you will take on a key role in our growing company and have the chance to help shape the future of our cloud products!

- Agile software development in a dynamic, growing team
- Close collaboration with (product) management, among others, to develop innovative solutions for our customers
- You develop pragmatic solutions for your area of responsibility iteratively and ensure the quality through tests
- You quickly get to grips with new topics and enjoy solving exciting problems - even outside your direct area of responsibility
- With the help of Jira and Confluence, you document and track your successes in optimizing the existing software architecture.

Your profile

- Completed studies in the technical field (e.g. computer science)
- Very good programming skills in Java and/or JavaScript, optional knowledge in C++
- Very good knowledge in Postgresql and Object Stores (AWS S3)
- Experience in the development of Cloud Native applications and Micro-Services/Docker
- Good knowledge of English

Your benefits

- Great team and motivating work environment
- Early entry into a growing team
- Work in a trendy and future-oriented market
- Flex office model: offices in Munich and Nuremberg as well as work from home
- Short decision-making processes, agile methods and regular company events
- Crisis-proof permanent job with attractive remuneration and additional social benefits

About us

Our goal is to become the leading data platform for medical data in Europe. We want to offer doctors and hospitals the opportunity to use digital tools easily and securely. Today, we are already working with over 600 clinics and radiologies of all sizes across Germany. In addition, we offer research institutions and startups an optimal environment for the development and validation of new, innovative healthcare products through high-quality medical data.

Do you want to become part of our growing team and drive the digital healthcare market forward with us? Then we look forward to receiving your application!

Send us your CV or the link to your LinkedIn/Xing profile via the e-mail address below or the application form on our website. If you have any questions, please contact us by e-mail or phone:
